- ◆ Design-Build Project

This 212,000 square foot "high cube" with 40 foot high roof begun in March 2003 with Phase One completed in December 2003. Phase Two updates will be complete in June 2004. This very fast-paced project consisted of an expansion of the existing 178,200 square foot distribution, warehouse and office facility into a 400,000 square foot facility. Renovations and upgrades were done on the existing building to accommodate new conveyor, pick modules and racking systems.
